

SPOT SOLDIER PORTABLE ONE SYSTEM[®] REMOTE VIDEO TERMINAL

NEXT-GENERATION FULL MOTION VIDEO RECEIVER

Built on Textron Systems' proven OSRVT™ technology, the Soldier Portable OSRVT (SPOT) delivers encrypted full-motion video, images and critical geospatial data from Department of Defense Crewed and Uncrewed Aircraft. The system's small size, intuitive displays and single antenna configuration is optimized for the dismounted warfighter at the tactical edge. Building on OSRVT's 15 years of combat experience embedded with all US Army Brigade Combat Teams and Special Forces Groups, the SPOT is the US Army's newest Video receiver Program of Record. Joining its larger OSRVT brother in continuing to meet the Service's critical NSA Type-1 Encrypted Full Motion Video requirements.

TEXTRON Systems

► PUSHING PAST POSSIBLE

DELIVERS REAL-TIME INFORMATION, WHEN AND WHERE IT'S NEEDED

SPOT systems deliver dismounted troops real-time full-motion video and telemetry from the aircraft's payload, giving them the same situational awareness as the aircraft pilot / payload operator. The SPOT is a lightweight (<8 lb), wearable system that provides unmatched battlefield performance.

PROVEN PERFORMANCE

Reliable, real-time situational understanding built on the experience of thousands of fielded video receiving systems

Annotated map views using standard geographic information systems products

Supports majority of image & video formats, STANAG, Army IOP standards

Available data decoding for geospatial intelligence, record and replay ISR

Rx 15 km

NEXT-GENERATION ENHANCEMENTS

Single multi-band antenna reduces weight and complexity

Service-oriented architecture (SOA) for rapid insertion of new features, technologies, UAS control segment & FACE™ alignment

Ruggedized tablet configuration with touch screen operation for dismounted emplacement

Simple intuitive controls, common codebase, scalable and simplified HMI

Shares same software & graphic user interface as the OSRVT (automatically reconfigures)

INTEROPERABILITY

PLATFORMS

- > AH-64 Apache Helicopter
- > MQ-1C Gray Eagle UAS
- > MQ-8C Fire Scout
- > MQ-9 Reaper UAS
- > RQ-11 Raven UAS
- > RQ-20 Puma UAS
- > RQ-21 Blackjack UAS
- > Aerosonde® UAS
- > Scan Eagle UAS
- > PTDS Aerostats
- > MARSS ISR Fixed Wing
- > Plus many other crewed & uncrewed systems

WAVEFORMS

- > Tactical
- > DDL
- > TCDL
- > Analog
- > VNW
- > BE-CDL

FREQUENCIES

- > L-Band
- > C-Band
- > S-Band
- > Ku-Band
